**PETITION FOR RECONSIDERATION**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Pursuant to 37 C.F.R. §1.378(c), Applicant respectfully requests reconsideration of the denial of their Petition to Accept Unintentionally Delayed Payment of Maintenance Fee in an Expired Patent filed 11 April 2011.

### **REMARKS**

This responds to the Denial of Petition mailed 18 May 2011. Applicant respectfully thanks Petitions Examiner Wise for her helpful comments during our phone conversation of 8 June 2011.

On 11 April 2011, Applicant submitted a Petition to Accept Unintentionally Delayed Payment of Maintenance Fee in an Expired Patent. At that time, Applicant inadvertently submitted a payment of \$1620 to cover the surcharge instead of the required payment of \$1640. Also at that time, Applicant was unable to pay the Maintenance Fee of \$1240 via the United States Patent and Trademark Office's on-line e-filer portal because the patent had expired.

During our phone conversation of 8 June 2011, Petitions Examiner Wise kindly pointed out Applicant's deficient payment of \$20 for the surcharge. Petitions Examiner Wise also kindly instructed Applicant to pay (1) a surcharge payment of \$20, (2) the maintenance fee of \$1240, and (3) a Petition Fee of \$400.

Applicant tried again on 8 June 2011 to pay the required Maintenance Fee of \$1240 via the United States Patent and Trademark Office's on-line e-filer portal, but was unable to pay (Exhibit A).

On 9 June 2011, when Applicant attempted to file a Petition for Reconsideration and attempted to pay the required fees online via the EFS-Web portal, Applicant was unable to pay the \$20 surcharge and the \$1240 maintenance fee and abandoned his attempt.

As such, Applicant will file this Petition for Reconsideration, pay the \$400 Petition Fee online, and request that the United States Patent and Trademark Office charge the (1) remaining surcharge payment of \$20, (2) the maintenance fee of \$1240, and any other required fees from Deposit Account No. 50-4934 in the appropriate amount.

Applicant submits that the foregoing facts, as supported by the attached Exhibit A, establish *bona fide* attempts to comply with the provisions of 37 C.F.R. §1.378(c), and accordingly request that Applicant's Petition be granted.

#### **Terms of Use:**

The USPTO databases are intended for use by the general public. Due to limitations of equipment and bandwidth, they are not intended to be a source for bulk downloads of USPTO data. Individuals, companies, IP addresses, or blocks of IP addresses who, in effect, deny service to the general public by generating unusually high numbers (10,000 or more, roughly equivalent to viewing 1,000 patents) of daily database accesses (searches, pages, or hits), whether generated manually or in an automated fashion, may be denied access to these servers without notice.

For information about which patents are subject to maintenance fees and the time of payment for maintenance fees, please refer to [Chapter 2500, Maintenance Fees](#), of the Manual of Patent Examining Procedure.

**NOTE:** The application number consists of a 2-digit series code PLUS the 6-digit serial number; e.g. if your series code is '08' and your serial number is '123456', the complete application number will be entered as '08123456.' Do not use commas, slashes or other non-numeric characters.

In order to find the series code that is based upon the application filing date, use the following table:
